

Project name

Mill Road Weir

Status

Concept only

Catchment

Crane

Tributary

N/A

OS grid reference

TQ1427072869

Length (m) of enhancement(s)

Unknown

Type of enhancement(s)

Removal or modification of Mill Road Weir, in conjunction with the weir on the associated side loop, to improve flows both on the main channel and side loop which could improve a significant length of river.

Reasons for enhancement(s)

Benefit in terms of fish passage. Improvement in flow for the benefit of aquatic plants such as ranunculus, and to allow for scour of gravels for the benefit of fish and invertebrates.

Key themes of enhancement(s)

Indicate by ticking one or more that apply.
