UPCOMING TRAINING COURSES & SITE VISITS

Introduction to Hydromorphology

Wednesday, July 11th 2018

Yate, South Gloucestershire

[Find out more](#)

Plus email us to register your interest in RRC site visits later this year to Tichborne and Hills to Levels in Somerset

RRC are currently planning and developing the 2018 Training Course Series. Book now to secure your place, and make sure you don't miss out on these opportunities to learn intricate skills. Upcoming courses include:

- Introduction to Hydromorphology
- Simple, effective project monitoring methods
- Assessing the Hyporheic Zone

Watch this space! We will update the website with more information as the courses develop [>>](#)

RIVER OGWEN RESTORATION PLAN SITE VISIT

Shwmael! Last week RRC held their AGM at the Natural Resources Wales offices in Bangor, North Wales, coinciding with the RRC member site visit to the River Ogwen Restoration Project. The sites included the Ynni Ogwen hydropower site, and Nant Ffrancon in the River Ogwen valley [>>](#)

SUPPORTING LOCAL AUTHORITIES AND COMMUNITIES

This month we recognise the second of the eight **River Champions**. Jim Gregg worked to improve the Six Mile Water for over 20 years, organising river clean ups, encouraging community involvement and communicating with the Antrim and Netwonabbey Borough Council to engage local schools in environmental conservation such as riparian tree planting. Jim was recently presented his River Champions certificate by Mayor Paul Hamill in Northern Ireland. Find out more about the 2018 Champions [>>](#)

NRRI FACTSHEETS

Want to know more about the project information held in the NRRI database? Have a look at the NRRI statistics factsheets. **Plus** add your project [>>](#)

RRC ADVISORY PROJECTS

We have recently updated the library of 1 page summaries on recent RRC advisory projects. Check them out on the Advice page on the RRC website [>>](#)

CONGRATULATIONS CHIARA MAGLIOZZI ON COMPLETING YOUR PHD

Congratulations to Chiara for submitting her PhD thesis after 3 years at Cranfield University, working alongside RRC. Chiara recently finalised her research on ecology and hydrology within the Hyporheic Zone. We wish her the best of luck for the future. Chiara will be coming back to deliver a training course on the Hyporheic Zone later in the year.

We would like to thank **Cranfield University** and our core funders for their continued support
