UPCOMING TRAINING COURSES

Project Evaluation: Tools & Techniques >>

Wednesday December 6th, Birmingham

Focusing on setting clear, achievable objectives with the aim of developing a clear monitoring plan of appropriate methods to evaluate success

River Habitat Survey Certification Course >>

March 13th-16th, Cardiff University Hall

RRC's Marc Naura is running a 4 day training course involving presentations and intensive fieldwork before the assessed written and field test

NFM TRAINING COURSE FEEDBACK

This month RRC held two back-to-back courses focused on Natural Flood Management. The two courses looked at mapping historical floodplains, surface runoff and storage areas in the landscape >>

Date for the diary: NFM Training Course coming June 2018

ADVICE FOR LOCAL TRUSTS & COMMUNITY GROUPS

[River Champion Patrick McNeill](#) has been nicknamed 'the River Man' as he is so well known for his monitoring of the River Lea for the Herts and Middlesex Wildlife Trust. He has helped on 15 projects in Wheathampstead to enhance the river including riverbank naturalisation, volunteer involvement, buffer strip installation and helping eradicate Himalayan Balsam. Patrick has brought the community together by providing talks to encourage participation of the Catchment Based Approach. He has proved invaluable to the Living Rivers Project and River Lea Catchment Partnership thanks to his enthusiastic approach >>

Upcoming events... Integrated Catchment Delivery events, including [CIWEM workshop: integrated catchment delivery for people, farming, floods, droughts and nature >>](#)

RIVERWIKI: RIVER CLEDDAU

The River Cleddau Project involved a range of soft engineering techniques including willow bundles and fencing for bank protection from poaching >>
