*Working to restore and enhance our rivers*

Delivering River Restoration: Recipes for Success

## 13<sup>TH</sup> ANNUAL NETWORK CONFERENCE

Restoring Europe's Rivers

ARUP

# How French river restoration projects are evaluated?

## *Discussion about the notion of success*

Bertrand Morandi<sup>1</sup>, Hervé Piégay<sup>1</sup> et Nicolas Lamouroux<sup>2</sup>

*RRC 13th Annual Network Conference – Nottingham 19-20 april 2012*

# Context and aim of the study

- European WFD (2000) promotes river restoration
- More and more French river restoration projects
- Need to evaluate the effects and the success of these projects

**Aim : provide feedback on the evaluation process  
of French river restoration projects**

# Studied restoration projects' characteristics

- restoration project
- restoration site in multisites project

© 2011 IFREMER

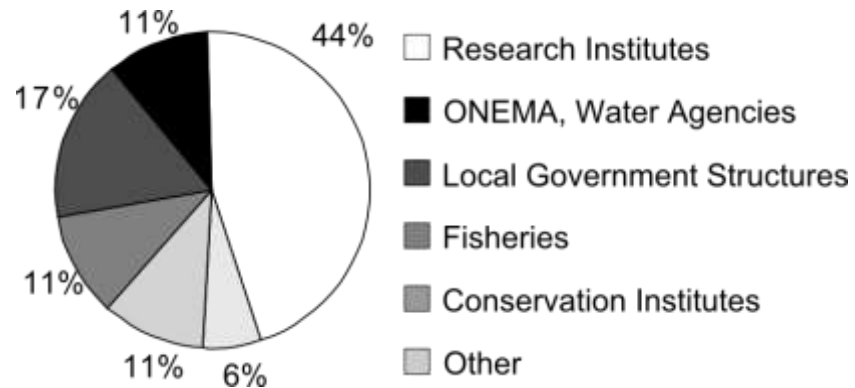

- Ecological engineering
- Instream Structures
- Channel or bank remodelling
- Remeandering, channel creation
- Dam or valve removal
- Former channel restoration
- Wetland restoration
- Personal and property protection
- Riparian restoration
- Minimum flow increase
- Sediment introduction
- Dam adjustment (fishway, etc.)
- Sediments extraction
- Dyke removal
- Instream pond removal

% of projects (n=44)

# Materials and methods

## Phone interviews (n=66)

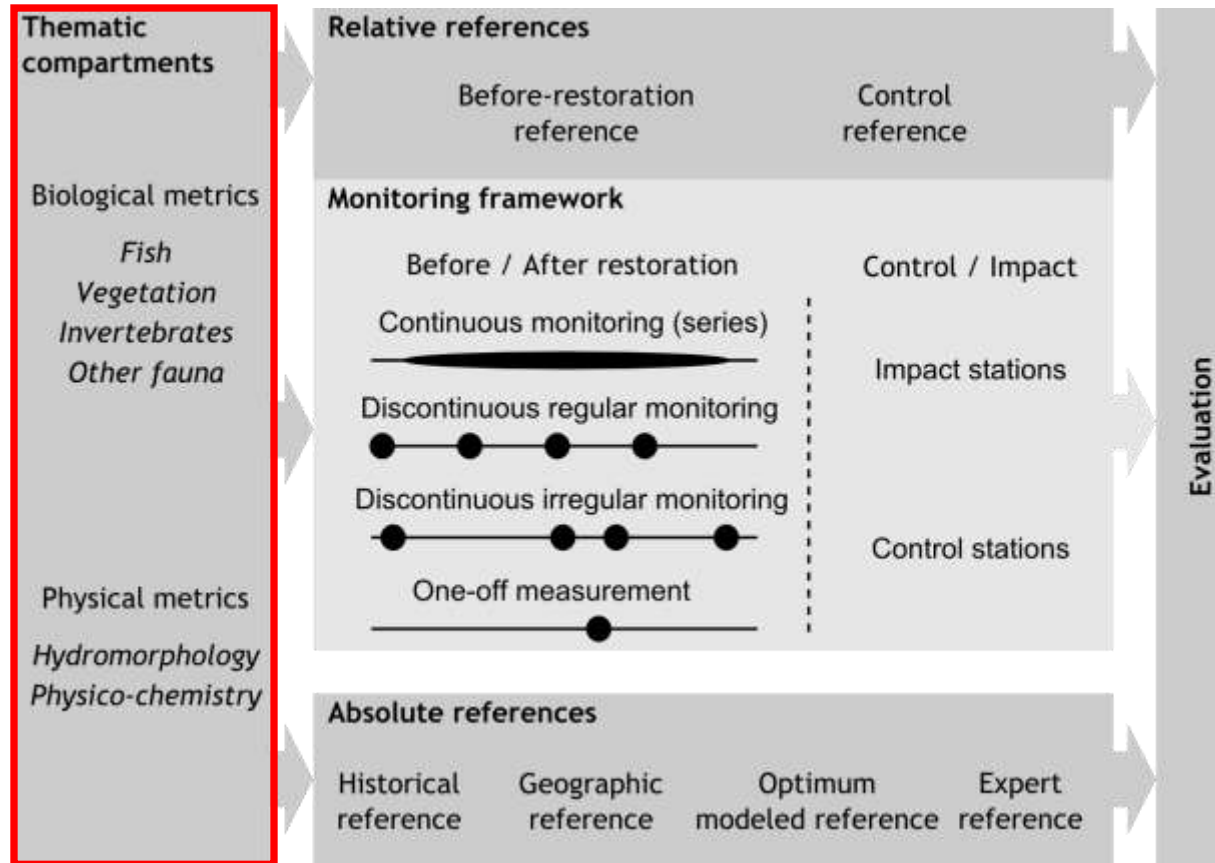

## Documents analysis (n=325)

# Framework for the assessment of evaluation and success

**What are the evaluation objects and metrics used?**

# What are the evaluation objects?

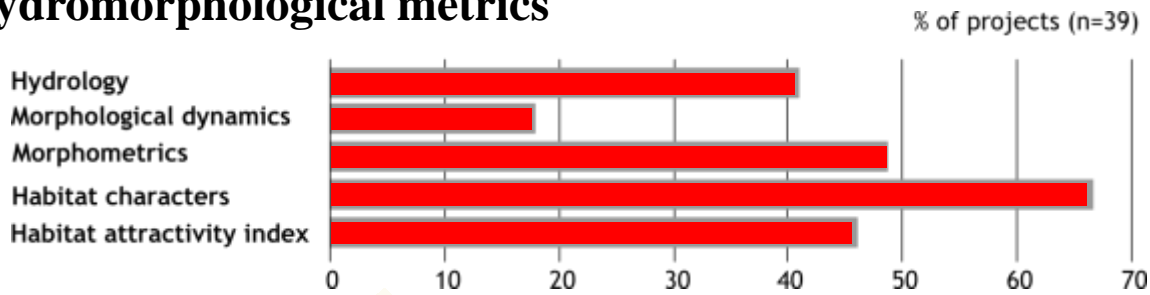

Muus *et al.*, 1973

Muus *et al.*, 1973

# What metrics are used?

## Hydromorphological metrics

## Fish metrics

Muus *et al.*, 1973

## Invertebrate metrics

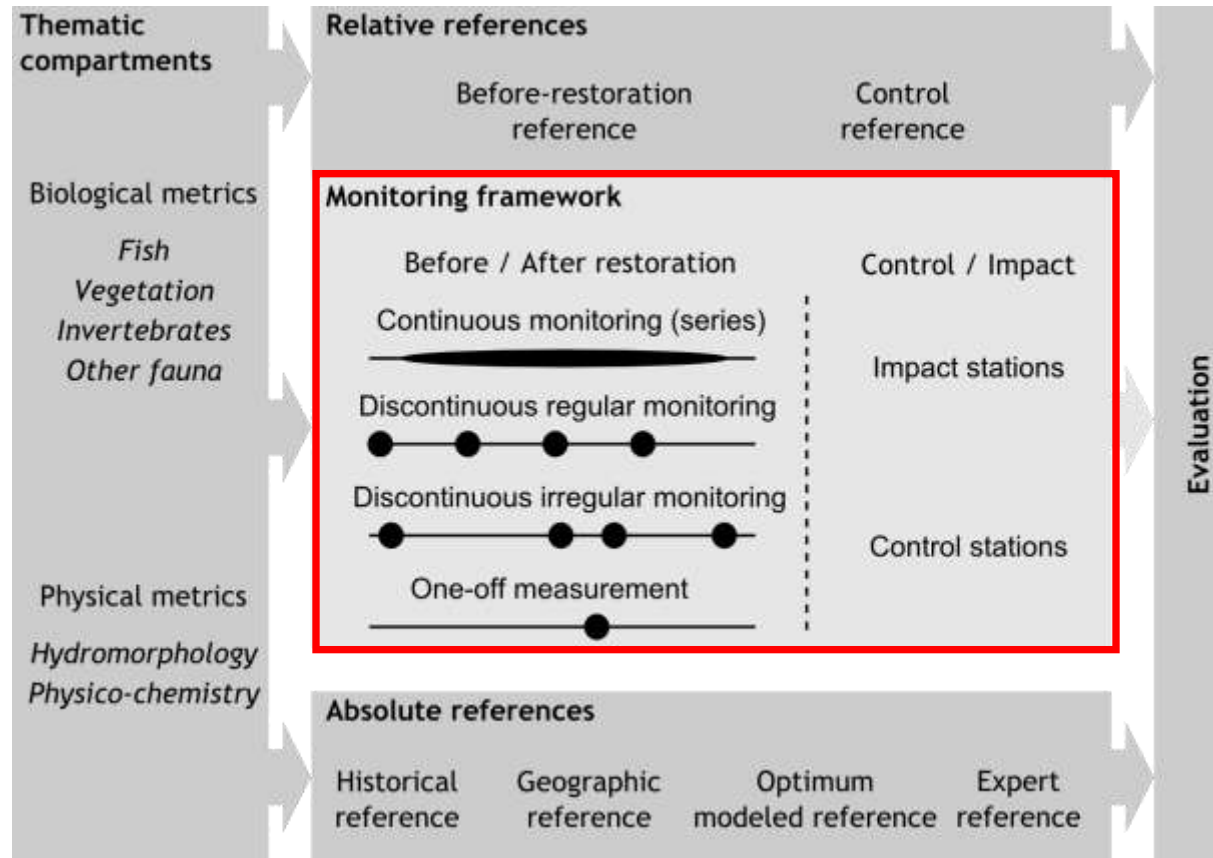

Muus *et al.*, 1973

# Framework for assessment of evaluation and success

What are the evaluation objects and metrics used?

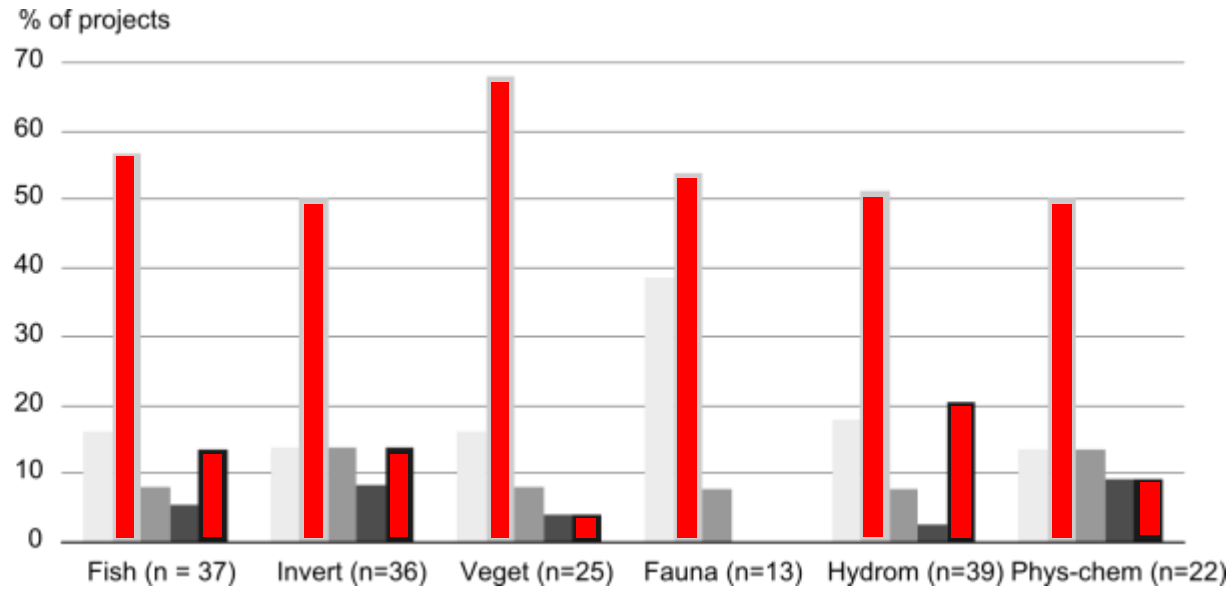

What are the monitoring frameworks?

# What are the monitoring frameworks?

## Before / After / Control measurements

- Only after
- Before & after
- After & control
- Before, after & after control
- Before, before control, after & after control

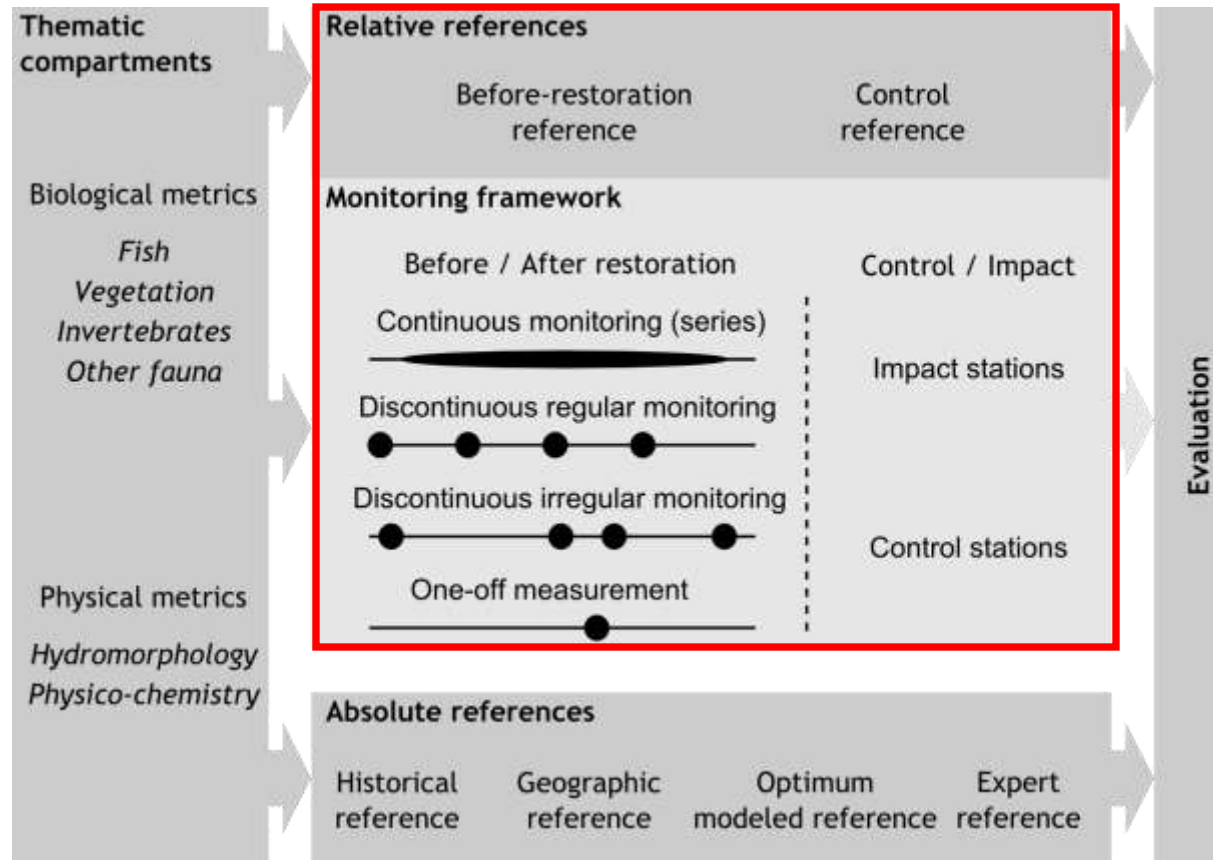

## Before / After measurements timing

# Framework for assessment of evaluation and success

What are the evaluation objects and metrics used?

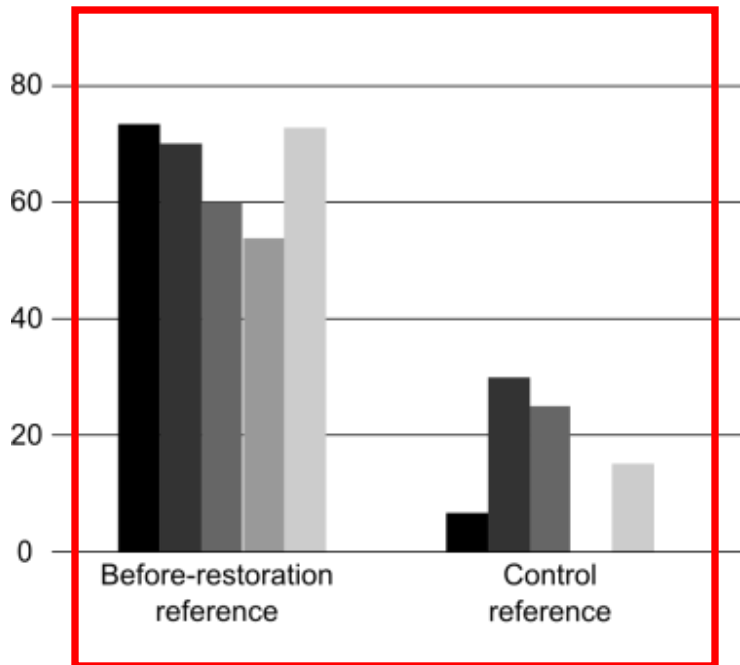

What are the monitoring frameworks?

What references are used for evaluation?

# What references are used for evaluation?

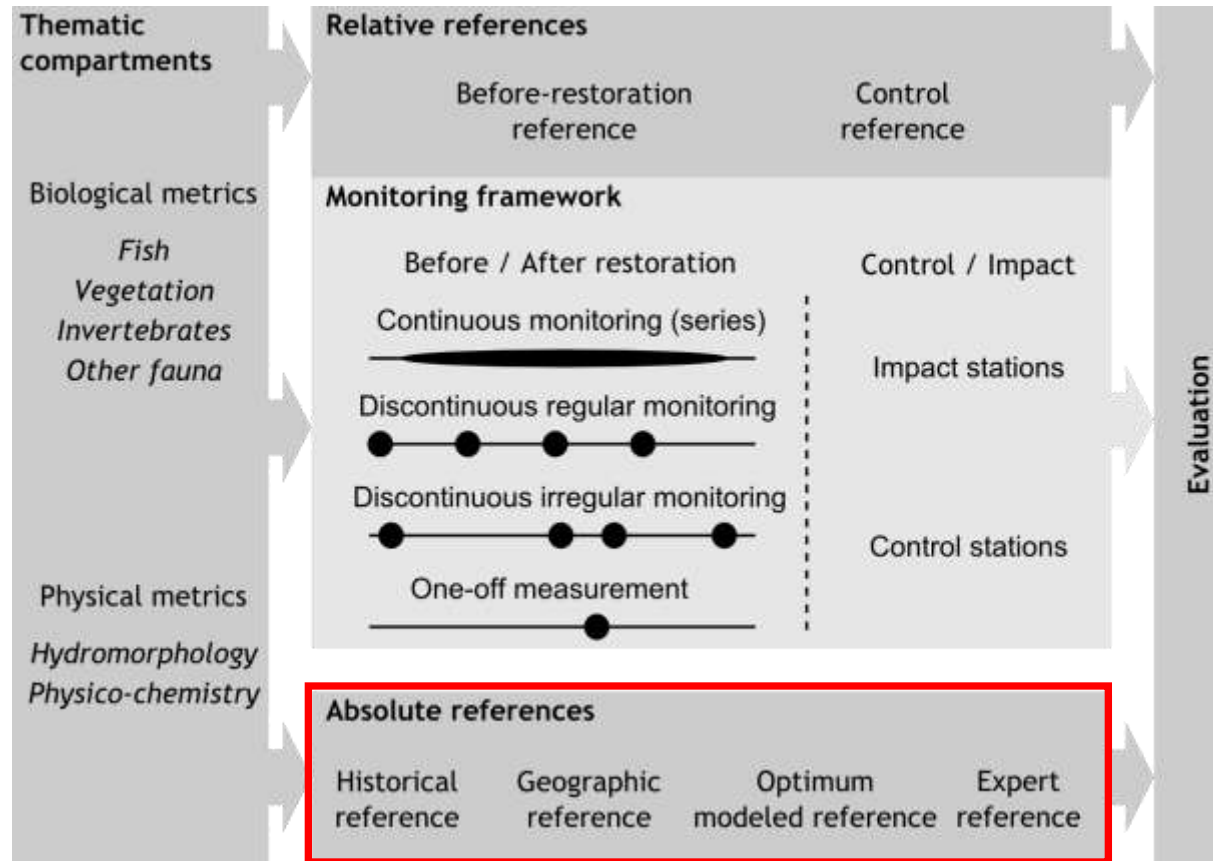

Relative references

# Framework for the evaluation and success assessment

What are evaluation objects and metrics used?

What are the monitoring frameworks?

What are references used for evaluation?

# What are references used for evaluation?

Relative references

Absolute references

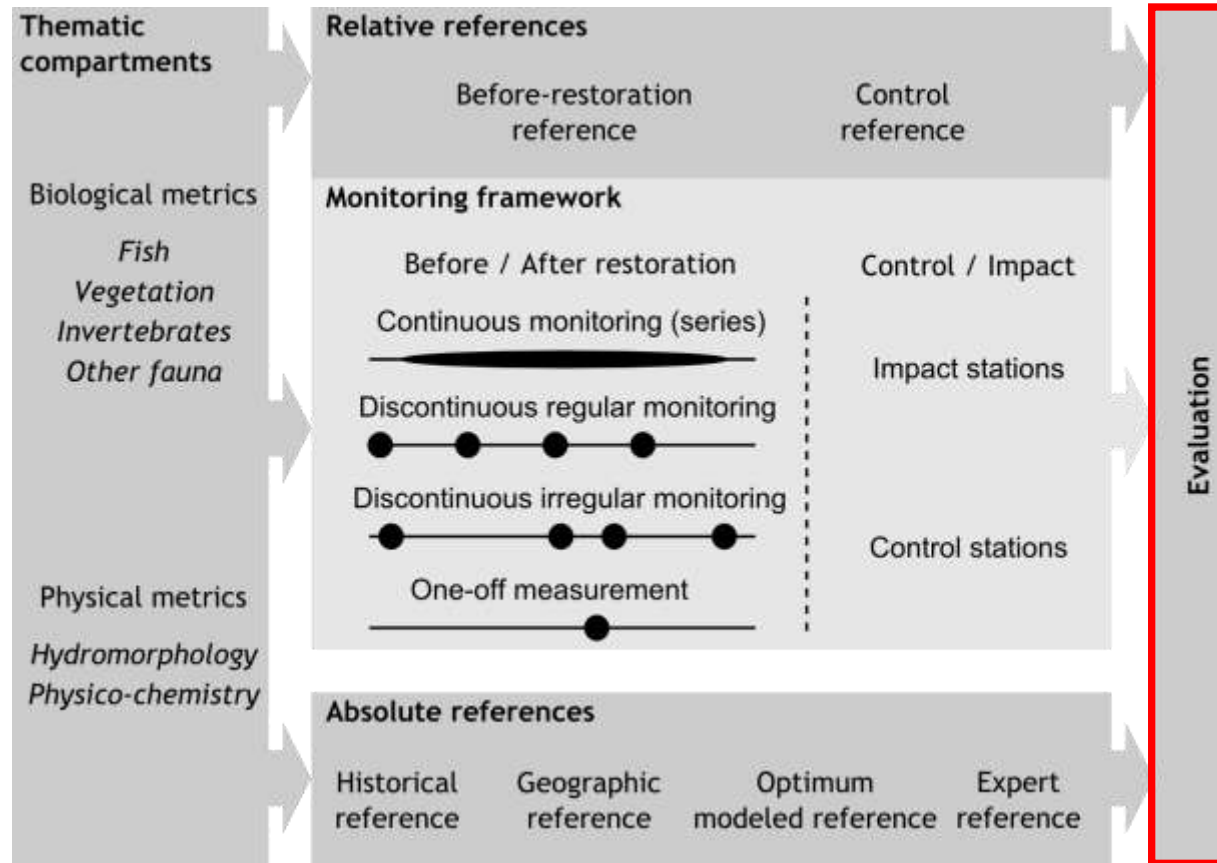

# Framework for the evaluation and success assessment

What are evaluation objects and metrics used?

What are the monitoring frameworks?

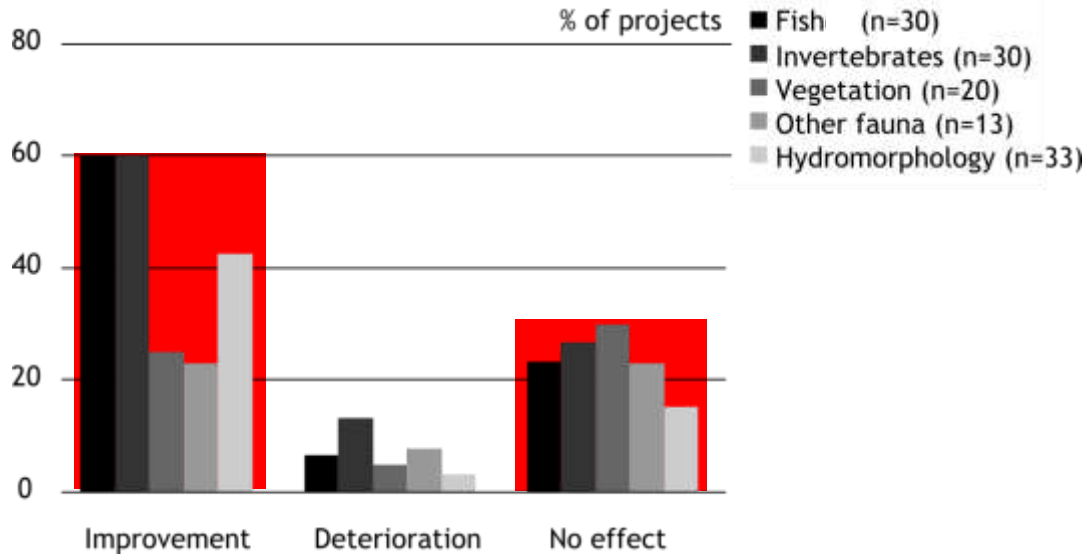

What are references used for evaluation?

What are the results of evaluation?

# What are the results of evaluation?

## From relative references

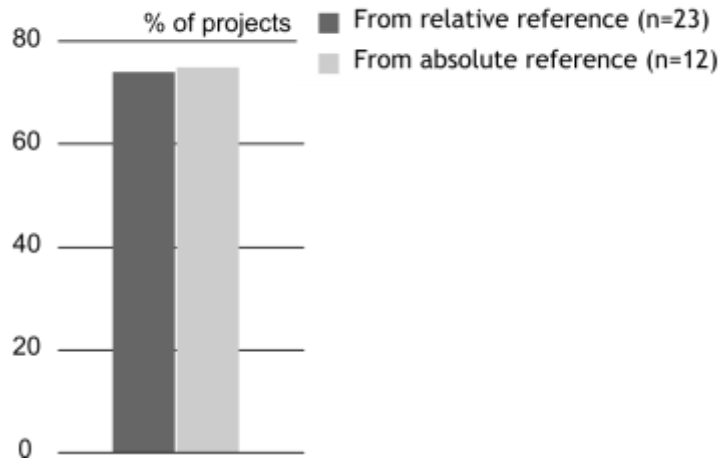

## From absolute references

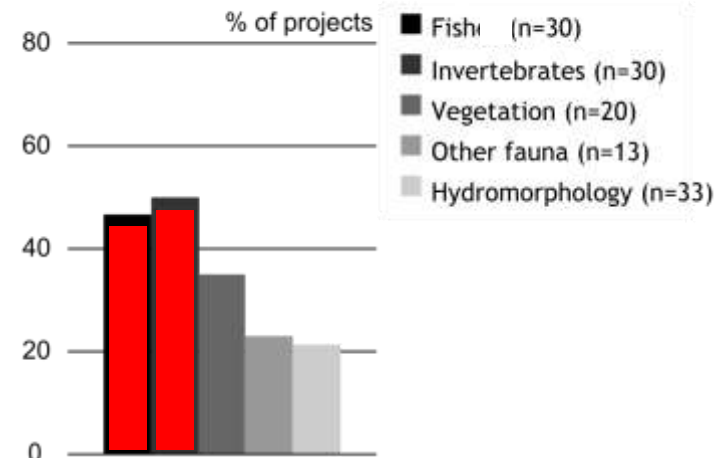

## Heterogeneity of results

### Inter-compartment heterogeneity

### Intra-compartment heterogeneity

# Conclusions and perspectives

A need to clearly define references for clear restoration objectives

A need to improve quality of monitoring in order to support reference comparison

Important to identify values behind references

**Support policy strategy to better situate river restoration projects within an integrated river management approach**

# Thank you for your attention

Many thanks to our FORECASTER partners, ONEMA financiers and all the scientists or stakeholders who took the time to answer to our solicitations.
