

Highlight...

20 years of RRC

This month marks two decades of RRC. We plan to celebrate with you at our conference!

Good to know

Did you see?

Our article in April's issue of CIWEM's magazine 'The Environment'? We describe how flooding can be alleviated by restoring natural processes.

Can you help?

A picture is famously worth a thousand words. Can you help us improve our website by providing good before & after restoration photos? >>

Special issue of the ECRR newsletter

All you need to know about the 5th European river restoration conference including lessons learned, knowledge gaps & more. >>

New flood risk guides

Reduce flood risk through improved channel & aquatic plant management. >>

#RRC2014

This is your last chance to book a place at our [Conference](#)

RiverWiki case study for MARCH

VISITS TO NEWCASTLE, NORFOLK & RHONDDA PLUS MUCH MORE... A BUSY MONTH FOR RRC!

This month we have been 'on the road' visiting restoration sites, attending workshops and highlighting opportunities to improve river corridors in the all corners of the UK. Here is what we did and what we have learned. >>

The European Riverprize © RESTORE

River Nene © RRC

FOUR ENGLAND RIVER PRIZE FINALISTS ANNOUNCED

The winners of the inaugural England River Prize will be announced at the RRC conference dinner on the 7th May. Four rivers will compete for the top prize. >>

RESTORATION ON THE NENE THROUGH PETERBOROUGH

Riparian habitat has been improved along a trial 12 metre section to deliver multiple benefits for the River Nene through Peterborough city centre. >>

RRC would like to thank **Cranfield UNIVERSITY** and the Centre's core funders for their continued support
