

# EU LIFE+ Information & Communication RESTORE Project

## Rivers: Engaging, Supporting and Transferring knOwledge for Restoration in Europe Engagement Event

### **Workshop Theme:**

**“Restoring Europe’s rivers in the context of wider water management objectives”**

### **Target audience:**

Environmental managers, practitioners, river basin planners and policy makers

### **Date and location:**

**22<sup>nd</sup> February 2012**

(Note: This RESTORE event is a special workshop session at the [CIWEM Water Management in Europe event](#)). This is to be held on 22-23<sup>rd</sup> February at the World Trade Centre, Lille, France.

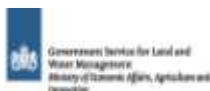

### **Workshop objectives:**

- Raise awareness of **opportunities to integrate river restoration into all aspects of water management** through national policy and European Union directives.
- Encourage group-based discussion (following *oral presentations of best-practice river restoration project examples* from across Europe) to **evaluate how best to increase the knowledge base about the links between river restoration and water management.**
- Demonstrate that **RESTORE can provide a platform for a wide range of stakeholders** to share their views and knowledge on water management activities in Europe.
- **Support future policy development in the water management sector** in accordance with a wider aim of the CIWEM International Water Management network conference.
