February 2023 - Issue 132

## 2023 Scientific Advances in River Restoration (SARR) Conference Abstract Deadline EXTENDED

The SARR conference will synthesise multi-disciplinary global research advances on river restoration and identify critical knowledge gaps. Scientists worldwide can present their work, discuss ideas, create new collaborations and help advance river restoration science to inform real world solutions.

**Abstract submission deadline 17th March 2023**

### Are you interested in a River Restoration Postgraduate Qualification?

RRC are exploring the possibility of setting up a postgraduate qualification in River Restoration with Cranfield University. The certification course will cover all aspects of river restoration from understanding your river to designing and proposing river restoration options. If you are interested, please [complete our survey](#)

### UK Dam Removal Conference, 18<sup>th</sup> - 19<sup>th</sup> May 2023

Two-day event will include presentations, evening program with Dam Removal Award ceremony and field trip on the second day. Through a series of invited speakers and field visits delegates will explore the reasons behind the slow rate of barrier removal, investigating the many challenges that have to be overcome before a structure can be removed.

### Restoring Meadow Communities: plants, soils, people, 24<sup>th</sup> - 25<sup>th</sup> May 2023

Two-day conference, taking a holistic look at floodplain meadow restoration with plenty of opportunities for networking and sharing best practice. We'll hear practical talks about restoring meadow soils and plants, and head out to see all this in action at some nearby restoration meadows. [Find out more](#)

### Job Opportunities

[Flood Liaison Officer at Central Bedfordshire Council - deadline 5<sup>th</sup> March](#)

[Senior Conservation Officer \(River Esk\) at North York Moors National Park - deadline 19<sup>th</sup> March](#)

## Upcoming site visits

RRC holds friendly, informative site visits to really good examples of restoration best practice and innovation. Site visits are free to members (£10 deposit to be refunded following attendance), and if space is available non-members are also welcome to attend at a small cost (usually approx. £30). We have 2 upcoming visits to the River Nar, and River Otter. Watch this space!
