## News & Events

### Carbon offsetting literature review published

The Environment Agency has set an ambitious target to achieve net zero carbon emissions by 2030. As offsetting is new to us we have undertaken a research project to help compile an evidence base which looked in detail at the evidence behind 17 different carbon offsetting approaches. [Find out more here.](#)

Plus, check out the blog [Carbon offsetting: reviewing the evidence](#)

### [Job Opportunity: Fluvial Geomorphologist at cbec](#)

[Email us and join the RRC Reading Group](#) to read our latest shared paper on the importance of riparian vegetation in hydromorphological assessment.
