

RRC Bulletin

November 2021 - Issue 120

RRC is hiring!

RRC is hiring a River Restoration Technical Manager. We are looking for someone who can drive forward excellence in the field of river restoration. You will be leading a team advising on the restoration of natural processes and habitat, floodplain reconnection, NFM, etc. Work will be locally and nationally, in the UK and Ireland at the interface between practice, science and policy.

Application deadline 13th December.
