RRC CONFERENCE - CALL FOR ABSTRACTS DEADLINE 14TH OCTOBER

We are excited to announce that the 21st RRC Annual Network Conference “River restoration: scaling up our ambition” will be held in Harrogate on 21st & 22nd April 2020. Abstract submissions are now open aiming to highlight a range of topics suggested at the 2019 conference. Topics include:

- The changing landscape of UK environmental legislation and policy
- Restoring resilience: preparing our rivers and floodplains for climate change
- Rural catchments: working with land managers to protect our headwaters
- Making a real impact in our towns and cities
- Biodiversity driven restoration - species needs and population viability
- Integrating practice and research
- Getting it done by engaging widely
- Where’s your evidence? When investigating in monitoring pays off
