

You can still book onto our Annual Network conference on the 19th & 20th May >>

RRC EVENTS IN 2015

Following a successful programme last year, we are once again holding a range of Technical Training Courses and Site Visits along with our [Annual Network Conference](#). With Events located in England, Northern Ireland and Scotland we are ensuring that our courses and site visits are accessible to everyone in the UK. The majority of our events are in the North as we had a southern orientated programme in 2014 and have had requests for courses in other locations.

Our events are a great opportunity to learn, network and in most cases visit a best practice site. [Members](#) can book onto site visits for free and get discounts on our training courses and conferences.

If you would like to find out more about this year's events you can do so here >>

RRC NATURAL FLOOD MANAGEMENT TRAINING

Supported by

ARUP

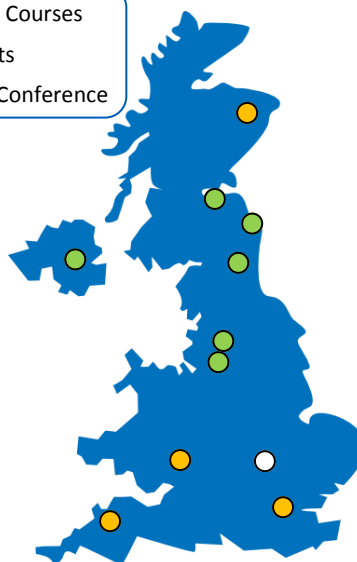

Our first event of the year will be held at Belford on 21st April 2015. It's a training course on Natural Flood Management: Concepts, design, project management and delivery. Book your place before the **8th of April** and find out more on our website >>

STORMY GEOMORPHOLOGY CONFERENCE

Extreme storms and floods are increasing in frequency and intensity across much of the globe. State-of-the-art understanding of geomorphic contributions to extreme events will be presented by world leading researchers at a one-day conference in **London on 11 May 2015** >>

OUR WATERS NEED YOU – FIND OUT HOW YOU CAN HELP #SAVEOURWATERS

The [Blueprint for Water coalition](#) has created the Save Our Waters questionnaire to make it easy for everyone to respond to the Environment Agency's [RBMP's](#). It's your chance to let the EA know about the aspirations you have for your water course and help radically improve the [health of our waters](#) for people, wildlife, and future generations. Have your say today >>

CHALK STREAMS CONFERENCE BLOG POST

By *Fiona Bowles, RRC Chair*

The WWF hosted a day of talks and panel discussions on chalk streams to build on the publication of their 'State of England's Chalk Streams' report 2014. It opened with a story of chalk stream restoration from Dorset to Norfolk... Read more >>
