Working to restore and enhance our rivers

RRC Training Course Series

Working with natural river and floodplain processes to achieve sustainable flood risk and multiple benefits

5th June 2014, Harrow, Kent

Report

Further information

Presentations:

- *Natural Flood Management: Examples, Jenny Mant*
- *Natural Flood Management Measures & Multiple Benefits, Steve Rose*
- *Holnicote Multi-Objective Flood Management Demonstration Project, Steve Rose*
- *From Inspiration to Operation, Andrew Pepper*

This workshop looked at catchment scale flood management using the Holnicote Estate project as an example. Andrew Pepper also gave a talk and led a site visit to the nearby River Pinn.
