

INVITE and programme – 2019 CaBA [Integrated Catchment Delivery](#) events and
Yorkshire Integrated Catchment Solutions Programme – NFM Community of Practice:

Understanding and sustaining benefits from natural flood management. Collingham visit and workshop

An inclusive and free-to-attend event hosted by iCASP, Catchment Partnerships in Yorkshire and the
Yorkshire Regional Flood and Coastal Committee

Date: Wednesday 11th September 9.30am to 4.30pm

Contact: Click [here](#) for bookings or dom@theriverstrust.org

Please bring: water proofs, wellies (shallow cattle crossing point) and sun cream just in case.

Note: lunch is provided. We are staying overnight in Leeds on the 10th in case you want to meet up?

Location: Scarcroft Village Hall, Wetherby Road, Scarcroft, Leeds, LS14 3AS

Directions: Buses available from Leeds and Wetherby, X98/ X99, to Scarcroft Village Hall
By car A58 north-east of Leeds city centre; A58 south-west of Wetherby

Shared goals

1. Sharing best practice NFM partnership approaches from across England.
2. Learning from Collingham Beck site visit, modelling and monitoring for this DEFRA funded NFM community project.
3. Embedding best practice approaches on sustaining NFM: risk, liability, payments, replacement and maintenance, monitoring and evaluating the benefits.

Outputs available after the event on the iCASP and River Restoration Centre websites

- Presentations and photos
- Web links to useful information

One of the projects we will hear from - Stroud rural SuDs and a group of flood and coastal engineering students (24.7.2019). Building capacity and future talent is one of the core themes from this activity

Programme

Chair Geoff Roberts, Yorkshire Regional Flood and Coastal Committee Conservation Member and Aire Catchment Partnership

Time	Item
09:30 – 10:00	Arrive, registering and networking
10:00 – 10:10	Welcome and introduction, Geoff Roberts
10:10 – 10:15	Capacity building and embedding best practice, Dom Martyn Catchment Based Approach National Support Group
10:15 – 10:30	Collingham modelling opportunities, Emma Wren, Mott MacDonald
10:30 – 10:40	Collingham monitoring, appraisal and evaluation, Chloe Glencross, Leeds University
10:40 – 10:50	DEFRA NFM evidence base – ArcGIS online for future investment, Dave Johnson Director Ecosystem Services, The Rivers Trust
10:50 – 12:20	Walking tour – Marie Taylor, Yorkshire Dales River Trust
12:20 – 13:20	LUNCH and demonstrating ArcGIS online tool and evidence base
13:20 – 13:40	NFM barriers report – sustainability elements, JBA Consulting
13:40 – 14:00	NFM maintenance and liability, Phil Delaney Integrated Outcomes Team, National FCERM Environment Agency
14:00 – 14:20	Project 1 - The Cumbria NFM experience, West Cumbria Rivers Trust
14:20 – 14:40	Project 2 – Using nature reducing flooding at Stroud, Rosemary McCloskey, Stroud District Council Rural SuDs Project Officer
14:40 – 15:00	Project 3 - A Wessex whole catchment approach to NFM solutions, Environment Agency
15:00 – 15:15	Comfort Break
15:15 – 15:50	Sustainability discussion – barriers, gaps and opportunities
15:50 – 16:05	Group feedback – priorities and next steps
16:05 – 16:20	Partner NFM updates
16:20 – 16:30	Thanks and close, Geoff Roberts

Thank you for coming, please hand in your feedback form before leaving and wishing you a safe journey home.
